

## **Thick Conversations Gathering**

**January 4 – 6, 2019**

### **Questions for Contemplative Dialogue**

1. Religious life as we've known it is changing (communal life, ministry). What is the naked reality of our SCL life now?
2. What is necessary for me and for us to live into this naked reality?
3. What did you hear that comforts and / or discomforts you?
4. In light of our SCL reality, individually and communally, how am I experiencing God's presence working in and through us?
5. What would the SCL Community look like if we deliberately created a space for the new to emerge?
6. How am I / are we going to live in the midst of / through these changes as the new evolves?
7. As we consider creating a future in some distance time, what is required of us when we speak of communal life and vocations?
8. What do you / we hear underneath our conversations? What is not being voiced?
9. How do we accompany / support one another in the various stages of change and transformation?
